

**SUGGESTED FORMULA****Dry Skin Lotion, Anhydrous**

Version number: 1.0

Volume or quantity: 100 gm

---

Olive Oil (Light)	25gm
Cocoa Butter, NF (CO105)	50gm
White Petrolatum, USP (PE125)	25gm

---

Due to the rapid degradation of Olive Oil, this preparation should be kept in a cool place. This preparation does not contain and Antioxidant. This thick lotion is used to treat very dry skin. It has excellent emollient properties and is often applied at bedtime for dry skin, especially during the winter in a cold climate.

**SUGGESTED COMPOUNDING PROCEDURES**

1. Calculate the required quantity of each ingredient for the total amount to be prepared
2. Accurately weigh and/or measure each ingredient
3. Melt the cocoa butter and White Petrolatum together at a temperature of about 40°C
4. Incorporate the light Olive oil, mix well and cool
5. Package and Label
6. Suggested Quality assessments:
  - a. color
  - b. texture
  - c. container
  - d. Label - auxiliary labels (external use), storage, BUD, compounded medication

For External Use Only

Keep away from eyes and Mucous Membranes

Store in air-tight container, at Controlled room temperature.

No claims are made as to the safety or efficacy of this preparation. This formulation is provided solely at the unsolicited request of the pharmacist.

Beyond-Use Dates of preparations are conservative estimates from reference books, peer-reviewed literature, and intended duration of therapy, formulation from commercially available products, organoleptic observations and current USP guidelines. Compounders may have stability studies performed by a reputable laboratory if they wish to extend the Beyond-Use Date. It is recommended that you follow USP <795> recommendations for potency testing.

**Beyond-Use Date should be assigned based on the current USP <795>**

**Precautions:**

Precautions should be taken to prevent cross-contamination and exposure of ingredients to the compounder and contamination of the preparation by the compounder. Wear appropriate protective equipment. Use safety enclosures (hoods) when weighing and mixing.
