

SUGGESTED FORMULA

Albendazole 200mg/5mL Oral Suspension

Version number: 2.0

Volume: 100mL

Albendazole, USP	4gm
Flavor of choice (water based)	1mL
Polysorbate 20, NF (PO132)	0.4mL
Vehicle for Oral Suspension, NF	50mL
Vehicle for Oral Solution, NF	100mL Q.S.

***Vehicle for Oral Suspension and Solution can be found at [SpectrumRx.com](https://www.spectrumrx.com) >Services >Formulations**
If using liquid flavoring add directly to the calibrated final container, if using powder add to step#1

SUGGESTED COMPOUNDING PROCEDURES

1. Weigh Albendazole and place in glass mortar and pestle
2. Dry triturate to break down any clumps in the chemical
3. Starting with Polysorbate 20, add into mortar and pestle to form a "paste"
4. Triturate until all Albendazole is broken down and incorporated
5. Add Vehicle for Oral Suspension until pourable mixture and pour into calibrated final container
6. Perform liquid "washes" in mortar and pestle to integrate remaining chemical using Vehicle for Oral suspension and/or Vehicle for Oral Solution
7. Pour each "wash" into final container taking precaution not to go over the final volume
8. Q.S. medication and shake well.
9. Suggested Quality Assessments – follow pharmacy SOPs:
 - a. Weight to Volume calculation
 - b. Color
 - c. Pourability
 - d. Settling
 - e. Resuspendability

Store in air tight amber plastic containers

Store Room Temperature

No claims are made as to the safety or efficacy of this preparation. This formulation is provided solely at the unsolicited request of the pharmacist.

Beyond-Use Dates of preparations are conservative estimates by the formulator using reference books, peer-reviewed literature, and intended duration of therapy, formulation from commercially available products, organoleptic observations and current USP guidelines. Compounders may have stability studies performed by a reputable laboratory if they wish to extend the Beyond-Use Date. It is recommended that you follow USP <795> recommendations for potency testing.

Beyond-Use Date should be based on the current USP <795>

Precautions should be taken to prevent cross-contamination and exposure of ingredients to the compounder and contamination of the preparation by the compounder. Wear appropriate protective equipment. Use safety enclosures (hoods) when weighing and mixing.

Although much attention has been paid to ensure the accuracy of the formulation contained here, Spectrum Pharmacy Products accepts no liability for the loss or damage arising from reliance on the information. Compounding pharmacists using this formula take full responsibility for the formulations and hold Spectrum Pharmacy Products and Spectrum Chemical Mfg Corp. and its officers, directors and employees harmless for any claim arising from use of or reliance on information contained therein.
